SKILLS BASED RESUME

PERSONAL SUMMARY

Throughout my 12 years in 4-H, I have developed strong leadership, communication, teamwork, and organizational skills through participation in county and state events, competitions, and leadership opportunities. These experiences have strengthened my ability to work with others, solve problems, stay organized, and take initiative. I am a respectful, dependable, and dedicated individual who is committed to learning, serving others, and contributing to any team.

LIFE SKILLS

LEADERSHIP:

- As Vice President of my Teen Leadership Council, I help lead meetings, support council activities, and encourage member participation while strengthening my leadership and communication skills.
- As a member of Executive Board, I have developed my leadership skills by working alongside other youth leaders and contributing to discussions.
- As a member of the iLEAD Committee for multiple years, I have applied my leadership skills by helping plan activities, collaborating with others, and creating meaningful leadership experiences for 4-H members.

SELF RESPONSIBILITY:

- I maintain strong attendance and organization during Zoom meetings and events, and I consistently submit all required documents and projects on time.
- I set a positive example by arriving early, staying prepared, maintaining a positive attitude, and demonstrating a strong work ethic.

RESILIANCY

- I started 4-H as a member at large without a club base and stayed involved by seeking opportunities, which led to my service on Executive Board and continued leadership growth.
- I participated in the Pullet Project, where I overcame challenges in raising live animals, met showmanship standards, and completed the project through auction.
- I have balanced multiple commitments, including school and outside activities, while developing flexibility, perseverance, and responsibility.

PLANNING/DECISION MAKING:

- I have contributed to fundraising planning and coordination through committee work by communicating with partners, distributing information, and supporting promotional efforts, which helped raise over $1,000 and strengthened my ability to organize, communicate, and support group decision-making. These experiences have also improved my ability to take initiative and contribute to successful team outcomes.
