*As 2023-24 State Council Secretary I will use my position in order to increase involvement within local and state events. I will strive to inform agents and members across the state of Florida of the incredible opportunities within 4-H; including those that are agriculture-focused and those that are not. By working with the officer team I believe we will be able to work towards educating all youth on the chance to be involved at more than just a county level.*
