STARTED MY OWN
BUSINESS - PLANTKINGUSA -
THROUGH FLORIDA 4-H
GATORPIT PROGRAM

WRITTEN OVER SIX FIGURES
IN GRANTS FOR NON-PROFIT,
IN DOING SO PROVIDED
FUNDING FOR FLORIDA 4-H
PROGRAMS

Serving as the 2022-2023 State Council Vice President, I will spend time building relationships with members, stakeholders and agents across the great state of Florida. These relationships will include leadership building and the educating of events for members to participate in. As the Vice President, I will serve along-side the President and our State Organization to effectively communicate opportunities and ideas to our agents across the state to overall “make the best, better!” Throughout the year, I will strive to take the time educating the youth all across Florida from inside the schools to speaking to communities of the tremendous opportunities 4-H has, all while working to increase membership in the 4-H Program. It will be my goal that each member has a unique and personal relationship with me throughout the year, whether that is teaching a cloverbud to deliver a speech, teaching a junior to show a chicken, working with an intermediate to compete in judging or preparing a senior to run for an office. I will take the time to make sure each 4-H member is successful and aware of the numerous opportunities available to them. Florida youth should know 4-H is not only agriculture, although important, youth should be aware of the amazing programs we have such as stem, cooking, dancing, arts etc. Throughout the year I will make sure the true image of 4-H opportunities are expressed through social media and communication. Working along with the State Officer team, I can guarantee that I will make sure we are delivering quality events and education across the state and that each event is up to date of the current trends. I will be a support to our fellow officers such as supporting our treasurer in financial skills such as grant writing or working with the secretary on building a better state communication email blast. To sum this, remember the word, ‘Opportunity.’ As the State Vice President, I will make sure each and every youth is provided different opportunities to strengthen their goals and to grow into a successful individual.
